## IPE GLOBAL CENTRE FOR KNOWLEDGE AND DEVELOPMENT

To leverage its vast experience, IPE Global has set up its Knowledge Initiative (KI) with the aim to consolidate IPE Global's learning and to provide research and advisory services in emerging areas of international development.

IPE Global Knowledge Initiative provides policy support and builds capacities of government, para-statal, international agencies and NGOs to address development challenges; document, dialogue and disseminate good policies and practices in sustainable development; promote innovation through technology and other means to find non-conventional solutions for development issues; and provide opportunities for corporates and other agencies to participate in sustainable social development.

The IPE Global Centre for Knowledge and Development seeks to address the emerging global issue of development. Objectives and core functions of the hub are:

Policy Research

Leadership Development

Innovation Think Tank

Using Technology For Development

Publishing Journals And Papers

Corporate Social Responsibility (CSR) Consulting
