Development Consultancy Firm IPE Global wins Asian Development Bank funded Jammu & Kashmir Urban Development Investment Project

JD NEWS SERVICE

JAMMU, NOV. 04: IPE Global, the largest development consulting firm of South-Asia has been successful in winning the contract for Design Supervision Consultancy Services in Jammu under the Jammu & Kashmir Urban Sector Development Investment Program. The project is funded by Asian Development Bank (ADB) and will be implemented in partnership with Economic Reconstruction Agency (ERA), State Government of Jammu and Kashmir. IPE Global will be assisting the Project Implementation Unit (PIU). The main objective of the program is to design, supervision and provide technical assistance in developing the water supply systems, extension of existing and construction of new sewerage systems, thereby maintaining sanitation, road and intersection capacity augmentation, road safety improvements and pedestrian under/ overpasses and other municipal facilities in Jammu.

Commenting on the announcement,

Ashwajit Singh, Chairman and Managing Director - IPE Global said, "Winning this project has enhanced our portfolio in Engineering and Infrastructure development. By implementing this project we would contribute towards sustainable economic growth of main urban areas of J&K with emphasis on promoting commerce and improvement of livelihoods of the poor". IPE Global has been working in the area of Engineering and Infrastructure Development providing integrated solutions from designing and implementation of institutional structures required for the efficient provision of infrastructure, helping to create individual infrastructure assets and their operation. IPE Global has extensive experience in urban infrastructure development projects spanning from concept development to engineering design, procurement, construction and ongoing operations and improvement. We provide consulting, engineering, project management and project advisory services.
